THE WOMAN HUSBAND.

Subsequent ingaines confirm the truth of the statements made in the Guardian of Wednes-day night as to this singular car. This womanmun, who; for probably more than 2's years, fins succeeded to concealing her sex, and in cursuing a trade of more than ordinarily masculine and hazardous description, with a degree of herself apprentice at the age of 16 or 17 years to a Mr Feacock, a bricklayer and builder at Bawtry, a small market town in the West Riding of Yorkshire, on the river Idle, which separates the counties of York and Nottingham She did not remain with Mr Peacock during the whole period of her apprenticeship, but was "turned over," as it is called, to another person in the same business. It was during her apprenticeship that she met with her present wite; and they were married at the old parish church of Shelleld, in the year 1016, when the wife was only 17 years of age. Since the investigation and disclosure of the circumstances the wife and bushaud have reparated. She was for many years a special constable in the 13th division of that body, acting for this town; and we are as sured that, on all occasions where the services of the division were required, as at elections, orange processions, and meetings of trades unions, turp-outs, &c, so far from absenting herself from what, as in the case of a wellgrounded appreheusems of a fiot, must have been, to a woman, a post of some unpleasantness, she is remembered to have been one of the most punctual in attendance, and the most forward volunteer in-actual duty in that division We understand that she is only no longer a special constable, because she did not on the last annual special sessions, held for that purpose at tension of her own business was the only motive for not resuming the duties of this office Altogether, this is by far the most singular case of the kind which has ever reached our knowl discovery of whose sex took place only ufter death, had not been married for so long a period as the woman whose case is now under notice. There, too, the discovery was made too late tool tain from the party herself any clue to the motives which led to so unfeminine a course of deception, but here both parties to the supposed marriage are alive, and the one who assumed the male sex is still alive, to give, it she chooses, the true history of her reasons or fancy

Her mighty sails the breezes swell, And fast she leaves the lessening land . And from the shore the last incewell is waved by many a snowy hand; And weeping eyes are on the Run, Until its verge she wanders n'er; But, from that hour of parting pain, Oh! she was never heard of more!

In her was many a mother's juy, And love of many a weeping lair; For her was watted, in its sigh, The lonely heart's unceasing prayer; And oh ' the thousand hopes untold, Of ardent youth, that vessel bore, Say, were they quenched in occupie sale,

For she was never heard of more? When on her wide and trackless \$ .. th Of desolution, doomad to flee, Say, sunk she 'mid the blending wiath Of racking clouds and rolling sea?

Oh ; were her tale of sorrow known. Twere something to the broken heart. The pange of doubt would then be gone, And fancy's endleers dreams depart ! It may not be: there is no ray By which her doons we may deglore; We only know she sailed away,

Saugrado as a visionary: fool: The ima enlate Faculty!! Let this renth be impressed upon every mund that all pain and weakness proceed from the presence of morbid, stagment and corrupt humans in THE sany by which the circulation of the blood is impeded, and that the only sensible method is to remove them from the atomach & bowels, then take. Brandreth's Pills, concacted forth

From the pure products of the earth;
They own no after sad alloy,
They often save, but ne'er destroy!
BLEEDING ALWAYS IMPROPER,

"For the life of the flesh is in the blood," Levit-icus, chapter xvii, v. 11. When the properties of BRANDRETH'S YEOLTABLE UNIVERSAL PILLE shall have been appreciated, blooding will no long. er he thought of as a remedy for diseases, for in ciglent inflammations, eight or ten of them will ake, in the course of two or three hours, mure of he impure humors from the hody, fly the stomach and bowels, then bleeding to the extent of forty courses could possibly bave done, and it should be remembered that the Pills remove ONLY those parts from the blood which were the cause of intiammation; whereas bleeding removes the coopstral partialiso. How great the prostration of all corporeal powers after a copious bleeding! On the contrary, what agility and strength is felt after a dose of this medicine; the body is indeed thlened of a load. Nothing is equal to ridding the vitimed. himors with a vegetable medicine of this kind, which 84 years have proved never to do injury, but always good. Is the pulse too high? A dose of these Pills well bring it down. Is it too low? the same means will increase it to a proper standard. Is it tremulous, showing nervous excitement? the Pilly, by soothing the system will allay it

Thousands of the most respectante citizens of the United States will be referred to with the same by. Dr. B. who have for many years been in the habit ofbeing bled as often as four times in a year, and whose constitutions in consequence, were becoming weaker and weaker, but who, since they have made use of these Pills, have never lost a drop of their precious blood. When any of their old symptoms appeared, instead of running to a Boctor and having a vein opened, they have swallowed six or eight Pills, which soon removed the vittated humors that were impeding the blond in its circulation. Those sensible people simply by the use of these invaluable Pills, are increasing every day the powers both of body and mind, which, by the practice of blending, were both becoming dreadfully impaired.

The following cases of cure, by the use of Brandreth's Pills, alone; are submitted with respect, to he unprejudiced portion of the Boston public:

ASTIMA CURED. The following extraordinary race of Asthma, which is authenticated by seventeen respectable and well known, inhalutants of Greenwich, Ct., deserves, by all persons, a careful perusel. The most prejudiced must own that evidence is on the side of these Pills, which, by the cures they are daily making show there is no necessity for any other medicine.

This is to certify that Thomas S. Brown of Greenwich, Ct., was taken with a cold, numb\_feeling, on the 13th of June last. He began to cough and raise phlegm and in the course of twenty four hours about two querts of thick white jelly was exwich, and Sawpits, pronounced it a hervous humic spasmodic Asthma, and after prescribing for some time to no effect, the three consulted together, and finally declared that they could do him no good; it would and must result in consumption, and death would ensue, and that in a very short time. The page was excessive in all parts of his body, and the difficulty in breathing was such as almost to cause strang Ation. He was reduced to amere skeleton. and it was recought a here skieting and it was recorded to death. After being and this interacte store nearly two months, he saw ing of Greenwich, for a hox, and recorded to Way. course of a rew days, which encouraged from to persevere, and now having taken them for about four monwe Kording to the direction, is entirely recovered, and so far as we can judge, in consequence of taking the above Pills, which we have also used in our families, and have found them invaluəble.

I hereby certify, that I have known Brandreth's
Vegetable Universal Pill for upwards of forty years they were used by my family connections, in the county of Dorset, England, since the year 1796, many of whom they cured of old standing com-plaints. JOSEPH GOULDEN. Bridgeport, Feb. 18, 1836.

Certificate of cure of CHOLICS, FITS, &c. &c. From a BOSTONIAN, whose address is at the foot. To Dr . Benj. Brundreth:

My dear Sir. I write a few lines to inform you that I have been making use of your Vegenable Universal Pills. I have been afflicted with a gent plaint supposed to be caused by PAINT. I was subject to me great coldness through my whole system, attended with frequent pain, and severe chore ics; for the year, I have also been subject to fits, which would seize me in the night, and when I have come to myself, I have been as weak as a child. I am ready to state the facts more particularly, and how the medicine acted upon me, at my residence. prairies, rivers, minerals, &c. &c. Also, sugges-No. 17 Sudbury street, to any one who wishes to

I feel the medicine has been of very great service and that the diseases under which I labored have been by it ENTIRELY REMOVED, for which I shall ever feel grateful to Providence and to you.

Believe me to remain.
